**Allgemeine Pflegehinweise / general care instructions / Istruzioni generale per la cura del prodotto**

Feinwaschmittel ohne optische Aufheller, sogenannte Colorwaschmittel, verhindern Farbabfärbungen und das Ausbleichen der Wäsche. Dunkle Farben separat waschen.

*Mild detergent without optical lightener, so-called color-washingpowder, will prevent colorbleeding and whitening. Please wash dark colors separately.*

*Detergente delicato senza sbiancanti ottici, cosiddetti detergenti colore, scolorirsi e prevenire la dissolvenza della biancheria. Lavare separatamente i colori scuri.*

Durch Verwendung von Weichspüler wird die Saugfähigkeit der Ware stark beeinträchtigt.

*In case of using fabric softener the absorbency of the goods will strongly be affected.*

*Utilizzando ammorbidente, la capacità di assorbimento del prodotto è notevolmente compromessa.*

Wäsche vor dem Waschen aufschütteln und nicht gefaltet in die Maschine geben. Bitte nicht längere Zeit in der Waschmaschine oder im Trockner liegen lassen.

*Please fluff up laundry before washing, do not insert it folded. Don't leave the laundry in the washing machine or in the dryer for a too long period of time.*

*Agitare la biancheria prima del lavaggio e non metterla in lavatrice piegata. Non lasciare fermo la biancheria a lungo in lavatrice o asciugatrice.*

Die in den Waschsymbolen vorgegebenen Gradzahlen sind zu beachten. Unter- sowie Überschreitungen beeinträchtigen das Waschergebnis.

*Take note of the stated degrees in washing symbols. Higher or lower deviation will compromise the washing result.*

*I simboli specificati di lavaggio in gradi devono essere rispettate. Il non corretto lavaggio (temperatura indicata sui simboli) potrebbe alterare il risultato finale di lavaggio.*

Unsere Polypro- und PVC-Sets (nicht Naturfaser) können per Handwäsche mit einem milden Geschirrspülmittel im handwarmen Wasserbad gereinigt werden. Bei hartnäckigen Verunreinigungen längere Zeit im Spülbad liegen lassen, ggf. mit geeigneter Bürste nachhelfen.

*Our polypro- and pvc-placemats (not natural fibre) could be cleaned per handwashing with a smooth dishwashing liquid in handwarm waterbath. In case of tough pollution, please leave it some time in the soapy water, possibly treat it with a suitable brush.*

*Il nostro set di polipropilene e PVC (non fibre naturali) possono essere puliti con il lavaggio a mano con un detergente neutro per piatti in acqua tiepida. Per impurità persistenti lasciare a mollo per un certo tempo.*
